Erasmus+ KA2

PROJECT NUMBER: 2020-1-IT02-KA201-079983

This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

The key purpose of HALO project is to include the Graphology among the tools for teaching and orientation of students 14-16 years old, through the introduction of analytical and evaluative elements of Graphological Analysis and, at the same time, promoting the cognitive benefits deriving from a more in-depth knowledge of students through the study of the handwriting.

Graphological Analysis is a powerful science capable to support the teaching methods and a chance to identify any cognitive disabilities, or situations of hardship or deviance and marginalization.

HALO project, in full respect for the independence of the teacher, offers an innovative and target group oriented Model for the effectiveness of Graphological Analysis in the school environment, by enriching the competences of teachers and guidance counselors who deal with students 14-16 years old.

HALO aims to change mind-sets of schools towards Graphological Analysis, through the activation of contributions from a broad partnership bringing together key stakeholders from the employment and education and training sectors.

### **IO1 - HANDWRITING ANALYSIS HANDBOOK AND ON-LINE COURSE FOR TEACHERS:**

Useful tools for teachers to strengthen the relationship with students.

### **IO2- HANDWRITING ANALYSIS HANDBOOK FOR STUDENTS GUIDANCE:**

A practical set of tools designed to create new communication and relationship styles for counselors, psychologists and graphological consultants.

### **IO3- HANDWRITING AND WORD PROCESSING HANDBOOK & VIDEO-TUTORIALS:**

A set of tools for teachers designed to promote a renewed adoption of handwriting in teaching, through the new applied word processor technologies
